

Introducing our new Rightsizing Service

"As someone who had to move from a 4 bed home with all the space and storage that go with it, I actually know how difficult it is to relinquish not only the larger home, but the memories that go with it; however, the pluses of downsizing are so much more attractive than you might imagine.

I believe the first and most important hurdle to even consider is wondering how on earth to decide what to keep and what not to keep. The stuff you accumulate over a long period of time is astonishing, but with some clever storage ideas and a gentle push, it really can be accomplished. I have 5 children and all of the associated stuff and memories you could imagine.

If Stockport Homes can help with some of the above emotional, practical and financial hurdles that are part and parcel of moving into somewhere smaller, then you're on a winner!"

Rightsizing Service

Stockport Homes has recently introduced a new service to help customers who live in large family-sized homes to move to a more manageable and affordable home. We know that many of our customers are experiencing issues linked to the cost of living crisis including rising heating and utility bills. Managing a home that is too big for your personal circumstances may be putting additional financial pressure on you and if it is, or you feel that now is the right time to look at moving to a smaller property with Stockport Homes, we are here to support you.

We know that moving home can be a huge decision and can also be costly. Some customers who have already moved under the rightsizing scheme had previously thought they couldn't afford to move home so the support available through the rightsizing service helped to resolve those concerns. We can help with the practicalities of moving home, identify a suitable property with you, and also help with moving costs.

If you live in a 3 or 4-bedroom property and want to move or are considering moving to a one-bedroom property, please get in touch
